Applicant's election of Claims 1-12 in the reply filed on Aug. 2, 2005 is acknowledged. Because applicant did not distinctly and specifically point out any errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 13-21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 & 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Gardner 5,228,427.

Gardner shows a ball sizer 50 for a paint ball gun (figure 7), having a bore, and a chamfer 51 at one end, providing a smooth transition from the end to the bore.

Claims 2-6 & 8-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
